Editorial Change ARIN-edit-2019-1: Remove IPv4 Reference in NRPM Section 6.10.1

Problem Statement:

There is confusing IPv4 policy in section NRPM Section 6.10.1.

Policy Statement:

Replace sentence

"These allocations will be no smaller than a /24 using IPv4 or a /48 using IPv6."

with

"These allocations will be no longer than a /48."

Comments:

Timetable for implementation: Immediate

Staff notes for June 20 Board Meeting:

- **ARIN Resource Impact** – The staff assessment notes implementation of this editorial change in policy would have a minimal resource impact. It is estimated that this policy could be implemented 60 days after ratification by the ARIN Board of Trustees.
- **ARIN Legal Assessment** – The legal assessment notes ARIN Counsel sees no material legal issue in the policy, and believes the policy will assist ARIN achieve anti-fraud objectives.
- **PDP Conformance** – The President notes that the ARIN PDP has been properly followed, and that comments submitted during the 30-day community discussion period were in support of the editorial change.
