- Our first major outreach for 2023
- Interactions with business, government, and technical stakeholders

Grenada Prime Minister
Dickon Mitchell speaking
at opening of ICT Week

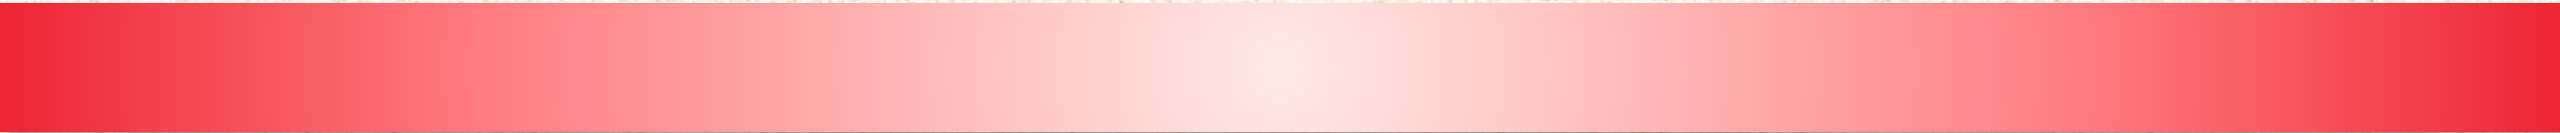

“ARIN’s facilitation of regional multistakeholder dialogue, support for governments, and investment in technical capacity building makes it an invaluable partner to the CTU and to Internet development in the Caribbean.”

Rodney Taylor
Secretary General
Caribbean Telecommunications Union

Engagement

ENGAGEMENT

Key events

- Commonwealth Telecommunications Organization Ministerial briefing
- CTU Statutory meetings
- Country visits
- Caribbean Internet organization collaborations

“ARIN’s Justice Forum has become a highly valued space for our judicial and legal members to gain insights into Internet trends and issues, and their implications for our region”

Richard Wall
Director/CIO
Caribbean Agency for Justice Solutions

Insights

INSIGHTS

Trends to watch

- ARIN's Government Affairs Department has a critical role in tracking technology, geopolitical, and economic trends that could potentially impact ARIN and the global Internet
- Insights gained are shared with staff, the community, and our stakeholders

INSIGHTS

Trends to watch

Internet infrastructure

spotlight increasing on Internet exchange points, routing security, and IPv6

Heightened government focus

on function and operations of Internet organizations

Cybersecurity concerns

growing as the economic and social impact increases
