About Deploy360

About Deploy360

The Challenge:

– The IETF creates protocols based on open standards, but some are not widely known or deployed

– People seeking to implement these protocols are confused by a lack of clear, concise deployment information

The Deploy360 Solution:

– Provide hands-on information on IPv6, DNSSEC, and Routing Security/Resiliency to advance real-world deployment

– Work with first adopters to collect and create technical resources and distribute these resources to fast following networks

Deploy360 Components

Web Portal
(Online Knowledge Repository)

- Technical documents
- Audience-specific information
- Blogs & social media

Social Media
(Constant Audience Engagement)

- Twitter
- Facebook
- Google+
- YouTube
- RSS Feeds

Speaking Engagements
(Come Meet Us or Invite Us to Speak)

- Regional IPv6 Summits
- Network Operators' Groups
- SIPNOC
- World IPv6 Congress

ION Conferences
(Hands-on Educational Events)

- Sao Paulo
- San Diego
- Singapore
- Toronto

The Internet Society

Your Participation

Use it to deploy these technologies!
- http://www.internetsociety.org/deploy360

Spread the Word
- Share it with your customers and clients who need help
- Follow us on social media and share our information

Provide feedback
- Tell us what else you need – we'll find it or create it
- What works? What doesn't?

Create Content
- Work with us on a case study or technical whitepaper
- Help us fill in the roadmaps
