Fee Structure Review Update

John Curran
President and CEO

Fee Structure Review Panel

Goal: *"To consider the various long-term fee structures that were suggested by the community on this topic and to summarize their pros/cons in a report back to ARIN Board and community"*

Status: Initial draft of the Fee Structure Review Report is completed

- Balanced document describing each of the various approaches to how ARIN might structure its fees going forward.

- To be used to provide a common basis for discussion of the merits of various approaches - does not provide a recommendation.

- Covers seven alternative approaches for recovery of ARIN's costs from all contracted parties receiving registration services in a *fair and equitable* manner.

Fee Structure Review Panel Report

The fee structure proposals considered in the report:

1. Current ARIN Fee Structure
2. Extending IPv4 Fee Categories Proposal
3. Linear Fee Categories Proposal
4. Realign IPv6 Categories Proposal
5. Algorithmic Fee Proposal
6. Membership-based Proposal
7. Transaction-based Proposal

For each proposal, included is a short summary of the proposed fee structure including how fees would differ among those receiving ARIN registration services, the potential benefits of the proposed fee structure, and potential issues or concerns arising from proposed fee structure

Fee Structure Review – Process

- Finalize and release Fee Structure Review Report – end of May 2014
