Voting Now Open for ARIN 2014 Elections

ARIN
Sent: Tuesday, September 30, 2014 at 11:21 AM
To: Judson Lewis

Dear DMR Joe,

The polls are now open for the elections to fill two seats on the ARIN Board of Trustees and seven se[illegible]s on ARIN Advisory Council (AC). The polls close at 3:00 PM EDT, 19 October.

As the Designated Member Representative (DMR), you alone may cast the ballot on behalf of your organization/s: TEST-1. Included below are instructions with a link you can click to access your ballot.

A compilation of candidate questionnaire responses in PDF is available at:

https://www.arin.net/participate/elections/candidate_bios.pdf

Additionally we encourage you to review and submit statements of support at:

https://www.arin.net/public/election/index.xhtml

If you have any questions about voting or encounter problems with the system, please immediately contact ARIN Communications and Member Services at info@arin.net.

Regards,

Communications and Member Services
American Registry for Internet Numbers (ARIN)

How to Vote:

1. Click on this link to access your ballot: https://www.bigpulse.com/rr?FKUDAOqIaRTbtcxc4z0iP
2. Select up to two candidates for the Board of Trustees then click "submit vote".
3. Select up to seven candidates for the Advisory Council then click "submit vote".
4. A thank you screen appears including a link to view your vote receipt. You will also be emailed a copy o[illegible]ote receipt.
5. Click "Sign-out" to return to ARIN Election Headquarters.

Instructions to Split Votes for Multiple Organizations:

If you are eligible to vote on behalf of more than one organization, you may change your vote weight per ballot. If you want to cast all of your ballots for the same group of candidates, then leave the "set the weight to" field as is (by default, this field will match your total vote weight).

If you want to cast multiple ballots and vote for different candidates per ballot, set the vote weight to a smaller number, select your candidates, and select "Submit Vote." The ballot screen will reappear, allowing you to repeat this process until you have cast a ballot for each organization you are eligible to vote on behalf of.

Example: If you have a total vote weight of 3 and set the weight to a value of 1, then click "submit vote"; you will be presented another ballot with your "unused vote weight" weight reduced to 2.

Step 1: Open Email from info@arin.net

Step 2: Click URL and Access Your Ballot

To: Judson Lewis

Dear Joe,

You voted as sign-in name: ARIN123
This vote was recorded: Tuesday 30 September 2014 11:31 EDT
You voted from IP address: 192.149.252.11
This vote has a weight of: 1
2014 Board of Trustees Election (Poll ID: 98126)

Vote receipt number: **5CtWZxStEM** ** see note below **
You voted for the following:

- Paul McCartney (ID#15705265)
- Ringo Starr (ID#15705263)

ID# is the permanent identification number of the selected choices in the database.

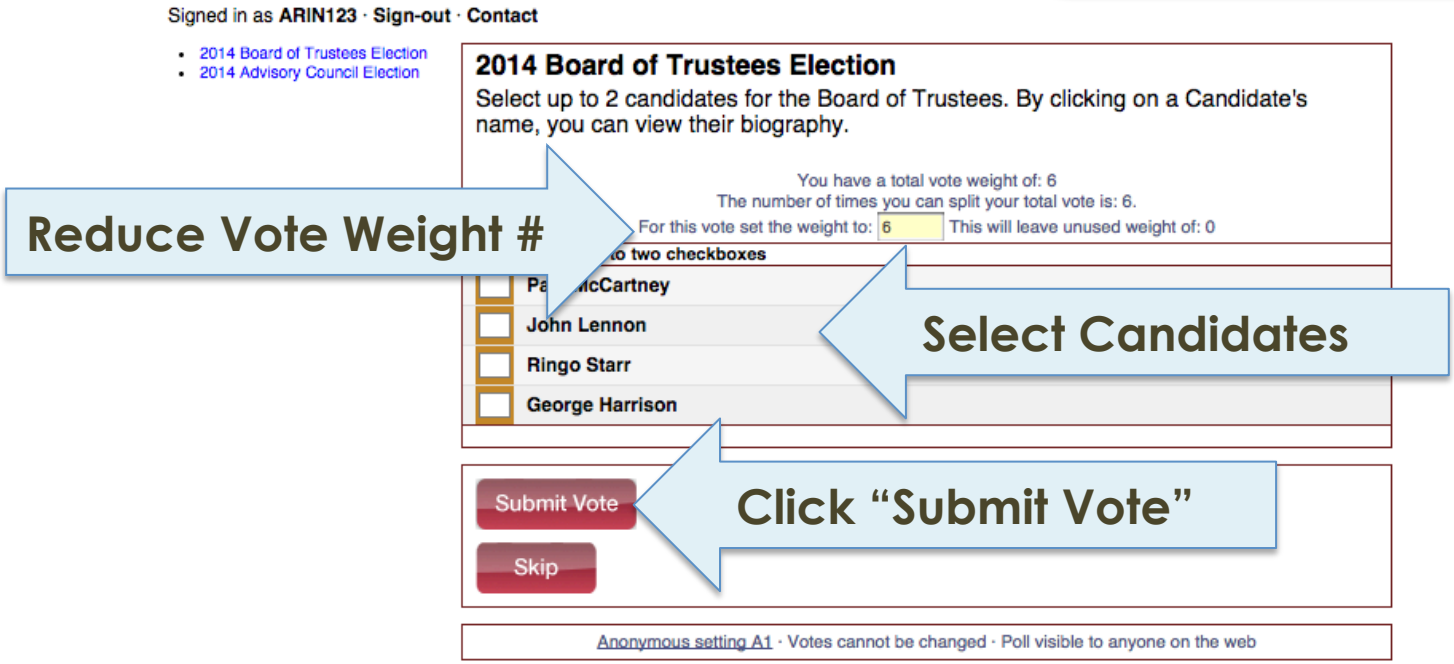
** Note: To protect the anonymity of your vote it is important not to disclose your vote receipt. For example, sometimes vote receipts (without names) are published as part of the vote verification process.

If you did not submit this vote please contact BigPulse by clicking the link below:
http://www.bigpulse.com/bpcontact

Note that a Voting Receipt will be automatically emailed to you for each election, Board and Advisory Council.

Multiple Voting Explained

If you want to cast all of your ballots for the same group of candidates, then leave the "set the weight to" field as is (by default, this field will match your total vote weight).



The ballot screen will reappear, allowing you to repeat this process until you have cast a ballot for each organization you are eligible to vote on behalf of.

Kevin Blumberg

The Wire Inc. CTO - 2001 - Current

Canadian Network Operators Consortium Inc., Board Member, Treasurer - 2010 - Current

ARIN Advisory Council - 2012 - Present

Toronto Internet Exchange - Board Member, 2011 - 2013

Mike Burns

I am an IPv4 address broker and network operator with Internet roots back to the ARPANET. I am active on the ARIN PPML and authored a re-write of the Specified Transfer policy in 2012, and have two draft proposals currently under discussion. I also run a network spanning 60 cities and more than 1,000 nodes. I have broad experience in wireless and satellite technologies and have been trading in IPv4 addresses and closely studying the market for more than a decade.

Andrew Dul

http://www.ipaddressnews.com

Currently:

- An independent networking & systems infrastructure consultant
- Serving on the ARIN Advisory Council since 2014
- Active in the ARIN and NANOG community since 1999

Previous related experiences:

- Network Operations at Internap Network Services
- Network Design Engineer at Connexion by Boeing
- Systems and Network Architect at Perkins Coie
- Network and Systems Consultant at Cascadeo
- Bachelors of Science in Electrical Engineering from the University of California, Davis
- Masters in Business Administration from Seattle University
- Served on the ARIN Advisory Council from 2002-2005

Robert Duncan

I have been in the IT industry for over 35 years. With Nortel Networks for 26 years and currently at Merit Network. I have been responsible for strategy and design of optical, Ethernet and IP network systems. This includes management of IPREG and DNS support.

David Farmer

David Farmer is a Senior Network Design Engineer at the University of Minnesota. He is a member of the University's Office of Information Technology, serving in variety of roles on the networking technical staff for the last 20 years. He is the Chair of the BOREAS-Net Technical Team, which oversees the day to day technical and operational aspects of a 1500 mile dark fiber DWDM network for the University and other participants. He is the University's primary technical representative to Internet2, the CIC OmniPOP, the Great Plains Network, the Northern Tier Network Consortium, and the Quilt.

Nick Guy

Jan 98 through Jan 2001: Northwest Link Manager of Network Operations for a regional ISP in Bellevue WA Managed transition to DSL became very familiar with small IP allocations.

Jan 2001 through Mar 2004 Semaphore Corp. Manager of Network Operations. Business Internet, colo and Managed Network provider. Internet centric.

Mar. 2004 – June 2013 Northwest Open Access Network, NoaNet. Principal Network Architect.

Built and operated a statewide network that endeavored to deliver broadband access to rural areas of Washington state.

April 2012 to present: Seattle Internet Exchange, SIX current board member former VP.

David Huberman

1999-2000 - ARIN Hostmaster
2000-2002 - Global Crossing IP Address Management
2003-2013 - ARIN Hostmaster
2013 - present - Microsoft IP Address Management

Timothy Kaufman

I work at Net Access as a Network Engineer and in the ISP industry for over 10 years. I have been involved with the NANOG community for approximately 5 years.

L Sean Kennedy

2001-Present XO Communications
1999-2001 Nextlink Communications
1997-1999 GTE Internetworking
1994-1997 BBN Planet
1989-1994 BBN Technologies

I have had responsibility for number policy with XO Communications, Nextlink, GTE Internetworking, and BBN Planet. This work has included number resources from Netlink, Concentric, Internex, Allegience Telecom (Digex), BBN (Arpanet), BARRnet, and SURAnet. I follow the PPML and attend ARIN public policy meetings where I have spoken for the above employees regarding policies under development.

Industry Participation

Sitting member of NANOG Program Committee (2013-2014). I have regularly attended NANOG and NSFnet Regional Techs since roughly 1991. I attended IETF regularly from 1995-1999 participating in discussions regarding CIDR and Interdomain Routing, closely followed the development of IPng, and continue to participate in the IETF through mailing lists.

Leif Sawyer

General Communications, Inc: Employed for over 19 years, over 15 in network engineering and architecture, over 12 years as the lead IP administrator, and ARIN DMR.

Lead IPv6 evangelist at GCI, and primary IPv6 deployment architect.

Lead VOIP IP architect

Lead IP Security Engineer

CableLabs focus group participant: MSO-IPv6, HIPNET, IPPM.

Active ARIN member since 2006

Steven Sprunk

Network Consulting Engineer at Cisco Systems, Systems Engineer at Force10 Networks, Systems Engineer and then Senior Product Manager at Polycom.

Chris Tacit

I believe that I would add substantial value if I were elected to the ARIN Advisory Council because of my relevant education, experience and skills.

My educational background includes earning electrical engineering, law and graduate business degrees. I am also a licensed professional engineer (1983, Ontario) and a member of the Law Societies of Upper Canada (Ontario) (1989), Alberta (2005), Nunavut (2009) and the Northwest Territories (2009). I am also a Canadian Trade-Mark Agent (1991).

My professional experience includes 33 years in the technology and communications fields, including over 25 years as a lawyer and consultant in these industries. During this time, I have had a considerable impact on the development of Canadian communications and Internet, law and policy. A significant focus of my career has been the promotion of competition, dynamic change and growth in the communications, Internet and technology sectors. I also have over 20 years of experience in representing and working with not-for-profit organizations.

Board of Trustees

Board Candidates

- Timothy Denton
- Bernadette Lewis (Not in Attendance)
- John Sweeting
- Bill Woodcock

Timothy Denton

On the Board of Trustees of ARIN since 2009.

domain names issues 1998-2005 for Tucows and CIRA

Consulted to ICANN at various stages

member, Nomination Committee of CIRA 2011- present

member, Canadian board of ISOC.

Bernadette Lewis

In August 2003 I was appointed as the Secretary General of the Caribbean Telecommunications Union (CTU). My early work was dedicated to revitalizing the organisation and I transformed it into a relevant, vibrant and effective multi-stakeholder ICT organization. As a result of my efforts the CTU is now at the forefront of regional activities to harmonise policies and practices for the development of the Caribbean ICT sector.

In 2005, under my direction, the Caribbean achieved a worldwide first by initiating a regional, multi-stakeholder Internet Governance Forum (IGF). The Caribbean IGF has since met annually, achieving the milestone of its 10th Anniversary in August 2014. One of its major achievements has been to promulgate a Caribbean Internet Governance Policy Framework, the 3rd issue of which was finalised at the 10th CIGF. The CTU, by working with its members, has successfully implemented many of the policies in the Framework, one of the more significant being the proliferation of Internet Exchange Points in the Caribbean.

John Sweeting

EXECUTIVE MANAGEMENT: Core Network Architecture & Engineering, Network Operations,

Talented and accomplished Technology Executive with extensive background in telecommunications, internet operations, information systems management, and customer support. Award-winning record of improving operations, reliability, and profitability. Expertise in project management, quality control, process analysis, workflow streamlining, process engineering, and information security.

Bill Woodcock

At PCH, I'm responsible for a budget of $260M/year, twenty-five staff, and have operations in more than seventy-five countries. I have been a co-founder and chaired the boards of directors of several other Internet-industry non-profits, including the Internet Capacity Development Consortium (seven years), the Apple Network Managers Association (three years), and was a co-founder and member of the board of directors of the ISP/Consortium (five years). I've also held CEO, President, or Vice President roles in five for-profit companies over the last thirty years. I've helped found four Network Operator Groups, and sat on the program committees of half a dozen of them. I've been on the technical advisory boards of more than a dozen large Internet companies. I attend the meetings of the other four RIRs, and ICANN, regularly, and have done so since each of them was founded. A more detailed CV is available on LinkedIn: https://www.linkedin.com/profile/view?id=2680
