

**ARIN-2015-11**

**Remove pre-exhaustion language**

Milton Mueller & Rob Seastrom

# Problem Statement

- NRPM sections 8.3 and 8.4 include language which is in effect "until exhaustion."
- As ARIN is no longer able to fulfill IPv4 requests, exhaustion has effectively occurred.
- This proposal serves to remove the outdated language from the NRPM

# Policy Statement 1

Remove the following sections of the NRPM:

- Section 8.3 (Transfers to Specified Recipients ARIN region)
  - Remove entirely the 2<sup>nd</sup> bullet: “The source entity will be ineligible to receive any further IPv4 address allocations or assignments from ARIN for a period of 12 months after a transfer approval, or until the exhaustion of ARIN's IPv4 space, whichever occurs first.”
- Section 8.4 (Inter-RIR Transfers to Specified Recipients)
  - Remove entirely the third bullet which reads "Source entities within the ARIN region will not be eligible to receive any further IPv4 address allocations or assignments from ARIN for a period of 12 months after a transfer approval, or until the exhaustion of ARIN's IPv4 space, whichever occurs first."

# Discussion

- Good to get rid of obsolete language
- Is anyone actually confused by it, though?
