

DALLAS | TX ★ 20-21 OCT 2016

Engineering Report

Mark Kusters

Staffing Summary

- **Operations**
 - Twelve engineers + two managers (-1 since last meeting)
 - Open DBA/Sysadmin opening
- **Development**
 - Thirteen engineers + UX expert + manager
 - FULL
- **Software Integration**
 - Ten engineers + manager
 - FULL
- **Project Management**
 - One PM and one PT PM
 - FULL
- **CTO**
 - FULL

Accomplishments since ARIN 37

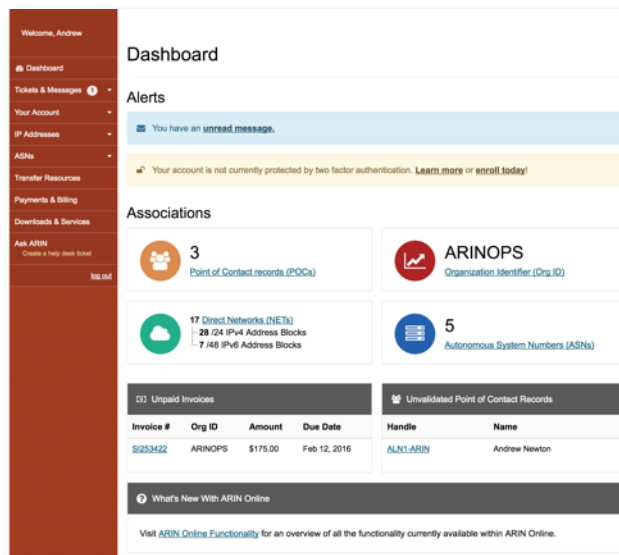

- **SWIP EZ finished with massive UI work**
 - Users can do modifications online
 - No need for templates
 - Edit direct assignments
 - Modifications on reassignments
 - Much Feedback from UX (User Experience)
 - User-friendly left hand navigation within ARIN Online
- **Completed 8.4 transfers**
- **Moved to a new office**

ARIN Online User Interface Work

- New ARIN Online welcome screen/dashboard
- ARIN Online main navigation updated
- Necessary for SWIP-EZ
- Usability tests with the community
 - Volunteers at ARIN On The Road events
 - Local volunteers
 - Testing of new dashboard, new left navigation and other aspects of ARIN Online
 - Interested in providing input? Send email to usability@arin.net

Welcome Screen/Dashboard

- Dashboard is dynamic
- Shows various alerts (and prompts) as necessary including all the ones you are used to seeing about unresponsive POCs and unpaid invoices.

Dashboard

Alerts

- You have an **unread message**.
- Your account is not currently protected by two factor authentication. [Learn more](#) or [enroll today!](#)

Associations

- 3 Point of Contact records (POCs)
- ARINOPS Organization Identifier (Org ID)
- 17 Direct Networks (NETs)
28 /24 IPv4 Address Blocks
7 /48 IPv6 Address Blocks
- 5 Autonomous System Numbers (ASNs)

Unpaid Invoices				Unvalidated Point of Contact Records	
Invoice #	Org ID	Amount	Due Date	Handle	Name
9253422	ARINOPS	\$175.00	Feb 12, 2016	ALN:ARIN	Andrew Newton

What's New With ARIN Online

Visit [ARIN Online Functionality](#) for an overview of all the functionality currently available within ARIN Online.

Note the badge in the left nav – it indicates the number of unread messages in your Message Center

Visit [ARIN Online Functionality](#) for an overview of all the functionality currently available within ARIN Online.

Main Navigation

- Added click-to-expand sub-navigation
- Grouped related items
- IP Addresses and ASNs are now top-level items
- Added help text to items

Welcome, Test

- Dashboard
- Tickets & Messages
- Your Account
- IP Addresses
- Search
View and manage your networks
- Request
Ask for IP addresses
- Transfer
Move IP addresses to or from your organization
- User Reassignment Report
View all downstream networks and holes
- ASNs
- Transfer Resources
- Payments & Billing
- Downloads & Services
- Ask ARIN
Create a help desk ticket

Create Reassignment

Reassignment Details

Please enter the network details.

* denotes required field

*IP Address Range

Please enter an IP address range, for example 192.0.0.0-192.255.255.255 or 192.0.0.0/8.

*Network Type

▼ [Help me choose](#)

Will the network you are creating be able to create its own reassignments?

Yes No

Simple Reassignment [i](#)

Detailed Reassignment [i](#)

Reallocation [i](#)

Use this for a downstream organization that will further reassign IP addresses to its own customers.

*Network Name

Use the network name as an identifier. Letters, numbers and dashes (-) are allowed, up to 50 characters.

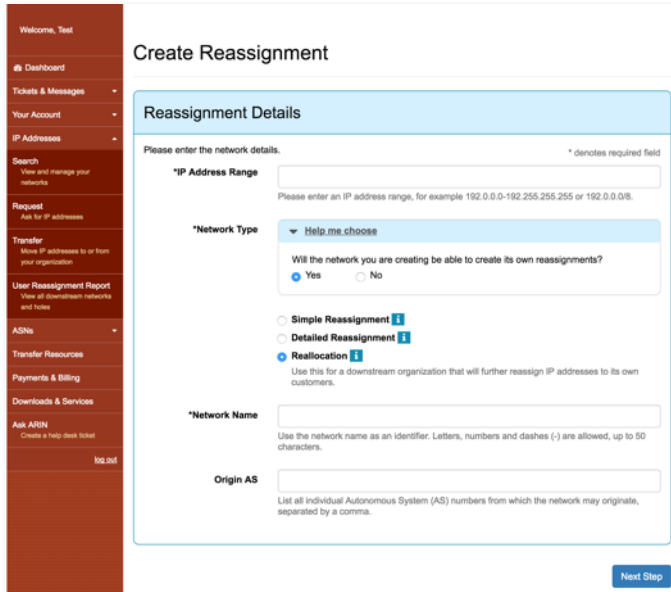

Origin AS

List all individual Autonomous System (AS) numbers from which the network may originate, separated by a comma.

Next Step

SWIP EZ

Create Reassignment

Yes No

Simple Reassignment ⓘ
 Detailed Reassignment ⓘ
 Reallocation ⓘ
Use this for a downstream organization that will further reassign IP addresses to its own customers.

*Network Name
Use the network name as an identifier. Letters, numbers and dashes (-) are allowed, up to 50 characters.

Origin AS
List all individual Autonomous System (AS) numbers from which the network may originate, separated by a comma.

Next Step

- Has a short quiz that chooses the SWIP type based on your answer
- Provides the details about each SWIP type on demand (click the “i” icon)

Operational Achievements

- **Office Move**
 - Much work to make ARIN move seamless
 - Buildout of new server room
 - Redo of Internal network – we improved the segmentation of the internal network per security audit recommendations
- **Better Security Posture**
 - Keep on implementing security audit recommendations
 - Better view on catching “interesting” traffic within our networks

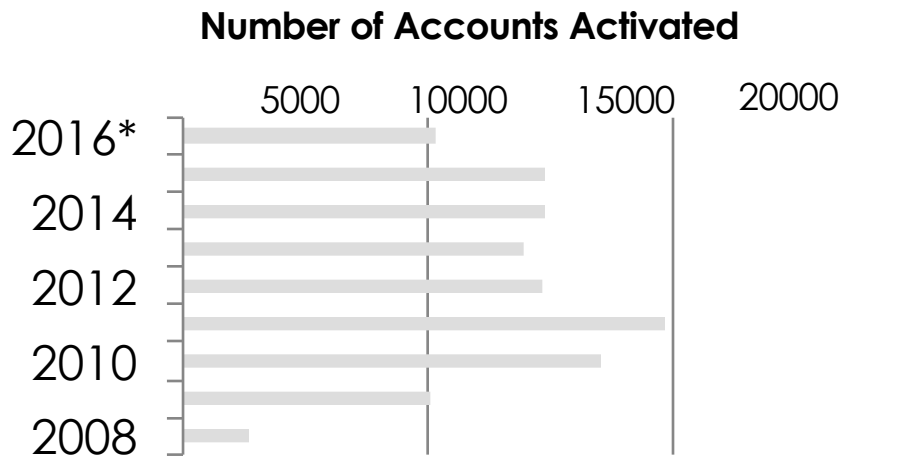

Operational Challenges

- **DDOS attacks have thankfully subsided (multiple Friday events)**
- **Old computer room infrastructure was aging and becoming difficult to maintain**
 - Our generator was running based on low-voltage to our facility for multiple days
 - Generator fuel delivery became problematic based on small tank size and constant overfills so...
 - We ran our own fuel delivery service for the last week of occupancy

ARIN Online Usage

117929 accounts activated since inception through Q3 of 2016

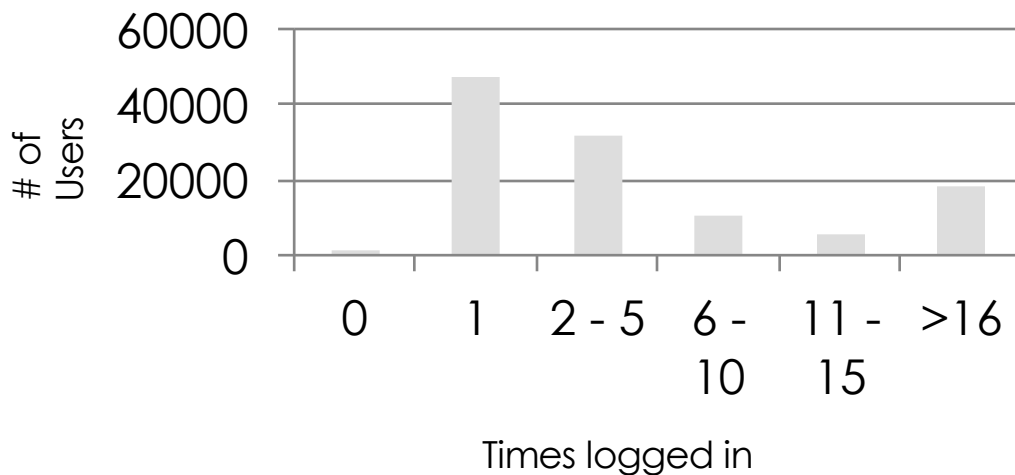

* Through Q3 of 2016

Active Usage of ARIN Online

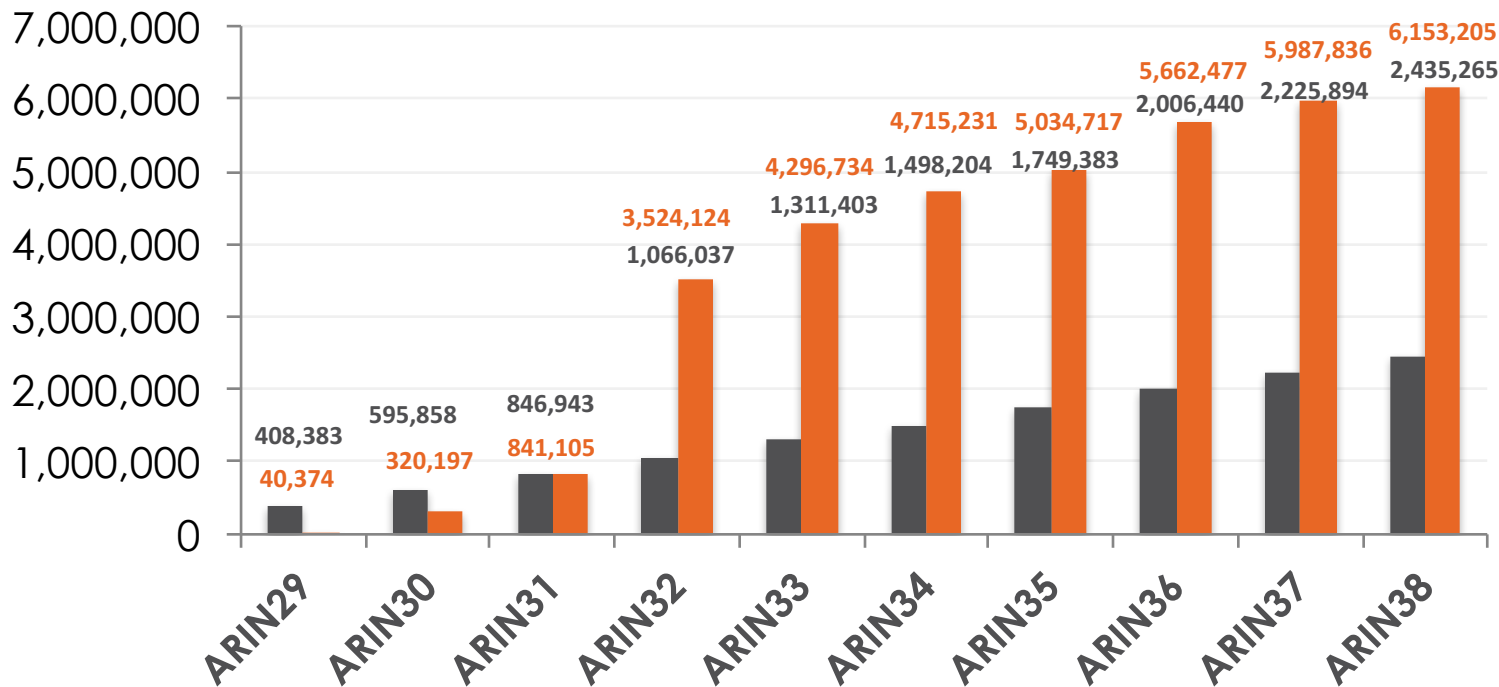

Logins from inception through Q3 of 2016

IRR object breakout by Organization

Number of Organizations	Number of Objects
44	100-2000
3	90-99
4	80-89
5	70-79
17	60-69
8	50-59
405	10-49
551	5-9
1476	1-4

What we are working on through 2017 Q1

- **Better Management of voting contacts**
- **Automated installation of software coupled with work on fully redundant services (like Reg-RWS)**
- **Starting work on OAuth**
 - Allow for authenticated users to receive unlimited query responses (ACSP 2012.20)
 - Use also in ARIN Online to remove timeout issue (ACSP 2013.29)
- **User Accessibility/Responsive Website (ACSP 2016.2 and ACSP 2011.21)**

Responsive Website Demo

What we are working on through 2017 Q1

- **Technical backlog**
 - **Moving from Java6 to Java8 for application servers**
 - **Overhaul of monitoring system**
 - Main system is Sensu
 - Currently have 2 legacy systems that need to be folded into the main monitoring system
 - **Automated build systems**
 - Currently using puppet
 - Is there something better?
 - **Improved logging, etc**

Comments?
