Staff and Legal Review (January 2018)

- **Staff Understanding**

- Draft Policy 2017-13 removes the requirement for ARIN staff to review and approve customer reallocations/reassignments under NRPM 4.2.3.5.

Staff and Legal Review (continued)

• Staff Comments

- Removal of NRPM 4.2.3.5 will result in ARIN staff no longer reviewing and approving large reassignments/reallocations made from Direct Allocations.
- Note that ARIN staff will continue to follow our process of reviewing reassignments / reallocations to verify usage for IPv4 requests submitted for waitlist purposes or for recipient transfers.
- This policy could be implemented as written.

Staff and Legal Review (continued)

- **Legal Assessment**

- There are no material legal issues regarding this proposal

Staff and Legal Review (continued)

- **Resource Impact**

- Implementation of this policy would have minimal resource impact. It is estimated that implementation could occur within 3 months after ratification by the ARIN Board of Trustees.
- The following would be needed in order to implement:
 - Updated guidelines and internal procedures
 - Staff training
 - Some engineering work will be required
