Recommended Draft Policy ARIN-2019-10 Inter-RIR M&A

Shepherds: Kerrie Richards and Rob Seastrom

Problem Statement

Merger, acquisition, or reorganization activity sometimes results in a restructuring where company resources, the management of number resources, or the use of number resources are concentrated outside the ARIN service region. In this case it may be desirable for the current legal entity or a legal entity that is a parent, child or sister to move the servicing of the number resources to a different RIR.

The Business Case

Policy Statement

Add to section 8.2:

When merger, acquisition, or reorganization activity results in surviving legal entity that is incorporated outside the ARIN service region, or focused outside the ARIN service region, or is merging with an organization that already has a relationship with another RIR, then resources may be moved to another RIR in accordance with the receiving RIR's policies.

Progress So Far

- Staff and legal completed August 28th 2019
 - Suggested amendments to 8.4 to add the following to the 3rd bullet: “*This restriction does not include transfers completed under section 8.2 Mergers, Acquisitions and Reorganizations.*”
 - And add Specified as the first word in the second bullet in section 8.4 Conditions on recipient of the transfer so it reads:

“*Specified Recipients within the ARIN region must meet the transfer requirements as defined in section 8.5*”

???

Thank you.
