

RWhois Server Use Requirements

Policy Proposal 2003-5

ARIN XI

Basis of Proposal

RWhois is supposed to be

- Allow for local administration of reassignment info
- Open to RIR staff to examine reassignment info
- Open to general public to query for reassignment info

Reality

- Restricted only to RIR staff
 - Not kept up to date
 - My dog ate my RWhois Server
- 

Requirements

Server up 24/7

Access to reassignment info

- RIR auditing
- General Public

Allowances for

- Privacy protections same as stated in multi-homed policy
 - Limiters to protect against query spamming
- 

Requirements (cont)

Minimal attribute set defined by ARIN staff

Data must be up to date

Questions/Improvements

I got one...

Make it more generic for any distributed service
