

Policy Proposal 2002-2

Experimental Internet Resource Allocations

* Status:

- ▶ Introduced - September 22, 2002
- ▶ Presented - ARIN X
- ▶ Revised version presented - ARIN XI
- ▶ Current version is the same text that was presented at ARIN XI

* Proposal text:

- ▶ In Meeting Packet
- ▶ http://www.arin.net/policy/2002_2.html

Policy Proposal 2002-2

***No discussion on PPML since ARIN XI.**

Moving Forward

- * Do we need this proposal at all? RIPE NCC and APNIC have similar policy but does ARIN need it?**
- * The discussion in Memphis included concerns from the IETF about liaison with IETF to vet experimental proposals. Is requiring an RFC a good way to do this?**

Moving Forward (2)

- * The discussion in Memphis also suggested a need for inter-RIR cooperation in this proposal to observe any unforeseen global impacts of an experiment. Does the staff have suitable mechanisms for implementing this? Is this enabled or enhanced by the NRO's coordination mechanisms?**
