Highlights:

- a. What is the magnitude and trend of such need?
- b. The authors of the proposal have first-hand knowledge of tens of thousands of PE-CE subnets that are numbered from globally unique address space.

Discussion

- c. This policy is simply striving to achieve clarification.
- d. If this policy only included the first sentence then I would support it.
- e. The policy proposal 'Should APNIC allocate global unicast IPv6 address space to unconnected networks?' was approved by consensus at the last meeting.
