APNIC update

ARIN XX

17 October 2007

Srinivas Chendi

Policy proposals

- **Reached consensus**
  - [prop-049] IANA policy for allocation of ASN blocks to RIRs
    - Returned to Policy SIG mailing list for eight-week comment period

- **Did not reach consensus**
  - [prop-051] Global policy for the allocation of the remaining IPv4 address space

- **Require more discussion**
  - [prop-050] IPv4 address transfers
  - [prop-046] IPv4 countdown policy proposal
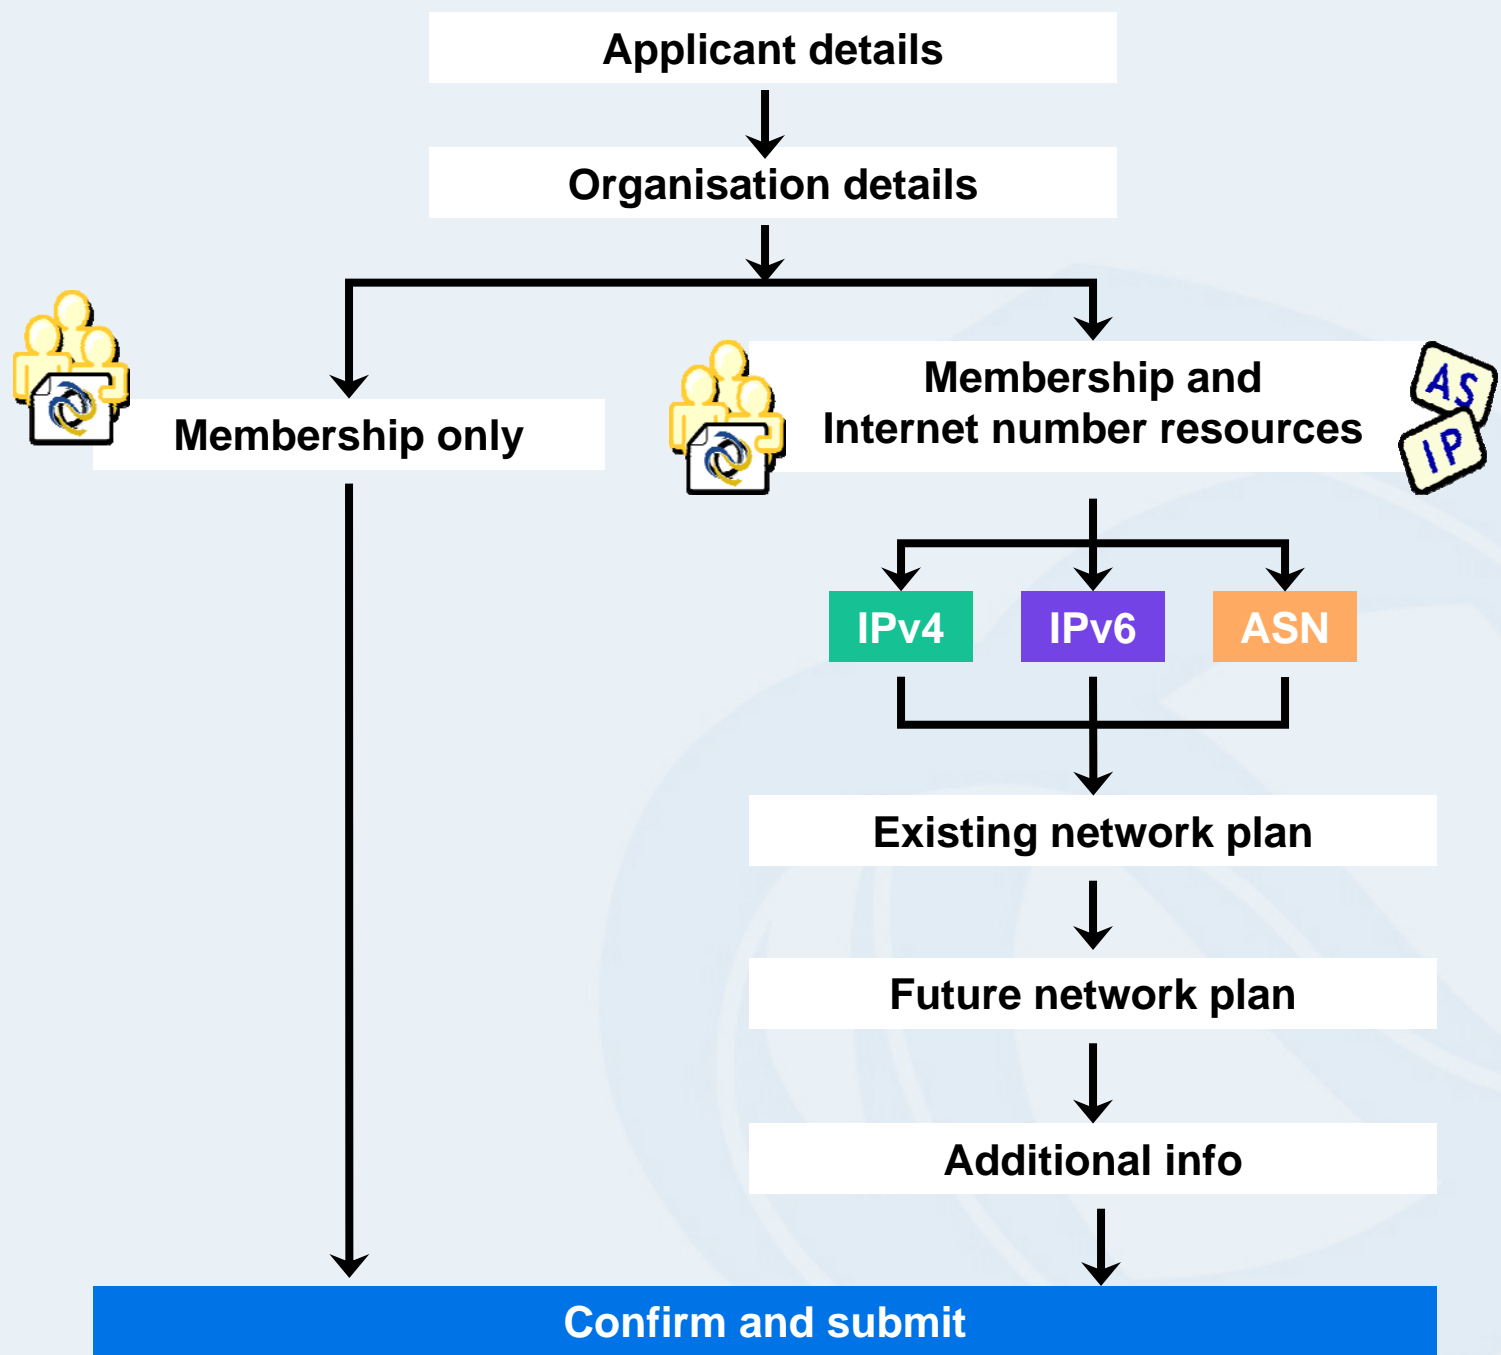

Policy proposals…

- Not presented
  - [prop-048] IPv6 ULA-central
  - [prop-047] eGLOP multicast address assignments
  - [prop-043] Proposal to remove reference to IPv6 policy document as a "interim" policy document
  - [prop-042] Proposal to change IPv6 initial allocation criteria

APNIC Surveys

- Three surveys previously…
  - Members and other stakeholders
  - Conducted independently (KPMG)
  - Guaranteed confidentiality
  - Face-face, written and online response
- Analysis of past results (KPMG)
  - 90% of items actioned (39% completed)
- Fourth survey – 2007
  - Launched November 2006
  - Published March 2007

Top 10 resource priorities

1. Technical research and development activities
2. Streamline resource requests and allocation process
3. Increase accessibility of APNIC meetings and policy processes
4. Represent the needs of the ISP community to governments and regulators
5. Expand training activities in scope, geographical coverage and online options.
6. Improve the APNIC website
7. Support ISP education in the AP region
8. Deploy more DNS root servers in the Asia Pacific region
9. Resource certification to support better routing security
10. Expand external communication and outreach activities
