Training activities

- Training has been an important part of activities since 2005.
  - More than 30 training sessions have been conducted in different countries in the region since 2005.
  - Since 2006, training was focused on transition to IPv6.
- Map:
  - *Orange: Countries where at least we had one training session (IPv6+LIR)*
  - *Green: Countries Planed to be covered in 2008*

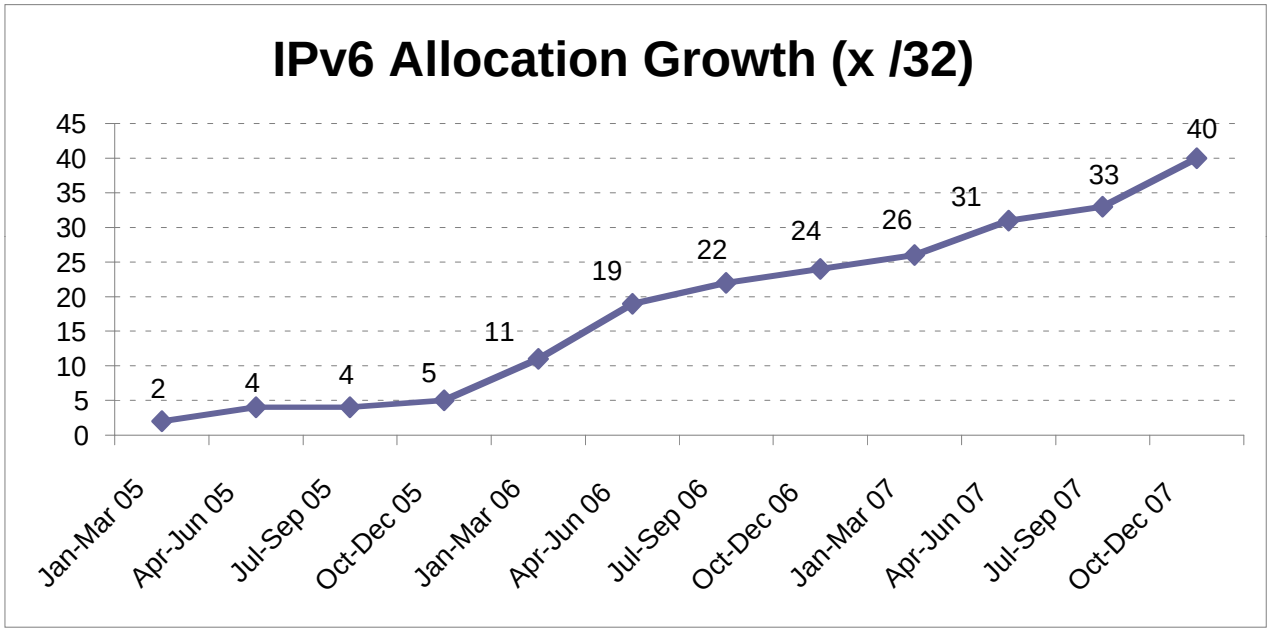
IPv6 allocation growth



- Since IPv6 is one of our priority, we are paying particular attention to its allocation growth and the announcement of the allocated prefixes.

Changes in 2008 Fee Schedule

- IPv6 Fees
  - For already established LIRs (with IPv4 allocation(s)):
    - Not to count the IPv6 prefix allocation in calculating the category of already established LIRs.
  - For New LIRs:
    - Allow 50% discount on the initial setup fee and 100% discount on the first year's membership fee for a LIR with IPv6 only allocation.
    - Allow respectively 75%, 50%, 25% discount on the membership fee for the three the subsequent years.
- Research and Education Networks
  - 50% discount on sign-up and membership fees
    - Need to be a not-for-profit Education network
    - Need to plan IPv6
- New Fee schedule for LIR

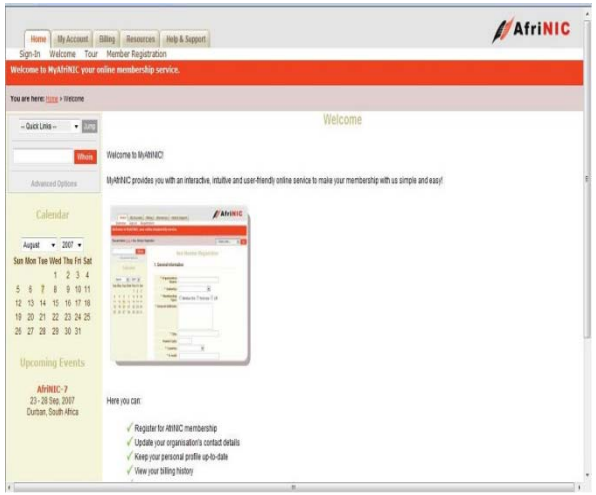
MyAfriNIC: AfriNIC Member Portal

- MyAfriNIC: a portal to allow LIRs to easily interact with AfriNIC and manage their resources.
  - Launched in September 2007
  - 166 registered users from 116 different organisations (~50% of active LIRs)



- Online payment now available for members
- Work on a version 2 of the portal (to integrate some features as result of feedback from Members) has started.
