ARIN Public Policy Meeting Schedule

One Down Side....

Results of the public policy meeting are not available at the members meeting.

IRPEP Revisions

- The AC has struggled with the right way to move forward overlapping and competitive proposals.
- Not all authors are responsive, particularly for long running proposals that see significant community input.

IRPEP Revisions

- Proposal presented during the Tuesday Public Policy Meeting.
- The AC would like to urge everyone to comment on the process.

IRPEP Revisions

- Affect on the AC:
 - Less time spent waiting on authors and/or convincing authors of community desired changes.
 - More time spent editing policy proposals.
 - More time spent presenting at meetings.
